

BCM CONTROLS CORPORATION

Building Automation Services

COMFORT SYSTEMS USA[®]

BCM Controls Corporation

BCM CONTROLS CORPORATION is a leading provider of building automation and security systems for commercial, institutional and industrial clientele. Our vision is to be the premier provider of business solutions addressing workplace comfort and security. Based in greater Boston, **BCM** serves New England with ease.

With thousands of successful projects completed since our founding in 1984, **BCM Controls** delivers systems that provide optimum energy efficiency, comfort and security. Our engineers leverage the latest technology to provide easy-to-use systems that offer the utmost flexibility to facility owners and managers.

In 1997, **BCM** merged with Comfort Systems USA, the leading single-source, nationwide provider of mechanical, facility automation and integrated energy services. Today, the benefits of this merger include an extensive resource network, exceptional financial strength, national purchasing power and competitive employee benefits that attract and keep **BCM's** talent.

We are known by the customers we keep.

When working with **BCM**, you'll deal with the same experienced team members for the duration of our work project and beyond. Our fully proficient Service Department is dedicated to providing long-term support. **BCM** will be your partner, offering solutions that integrate systems, networks and facilities that out-of-the-box providers simply cannot deliver.

We do what it takes to get the job done.

We offer value, best practices and experience on every project and respond with utmost focus to our customer's needs. Our discriminating customers tend to remain with **BCM** because we are capable of customizing and optimizing building control and security systems that are exactly what our customers need and want.

We deliver the best solution possible.

That's why our customers turn to us for innovative and reliable systems again and again.

THE BCM CONTROLS BAS SERVICE DEPARTMENT services a wide range of Building Automation Systems. Our experienced and highly trained team services, supports & integrates systems in some of the largest and most crucial establishments in New England.
